

CrystaX NDK - Bug #2607

crew install command outputs bad error message when formula has a non-existing dependency

10/10/2018 05:18 PM - Alexander Zhukov

Status:	Done	Start date:	10/10/2018
Priority:	Normal	Due date:	
Assignee:	Alexander Zhukov	% Done:	100%
Category:	crew	Estimated time:	0.00 hour
Target version:	11.0.0	Android version:	
CPU Architecture:		CrystaX Version:	
Host OS:			
Toolchain:			

Description

If formula has a dependency that refers to the non-existing formula then crew install command outputs the following message:

```
zuav@ithilien$ ./crew -b install target/python:2.7.11
calculating dependencies for target/python:
error: undefined method `dependencies' for nil:NilClass
```

Correct message must be like this:

```
error: target/python depends on unknown formula 'foo'
```

History

#1 - 10/10/2018 05:19 PM - Alexander Zhukov

- Status changed from Open to In Progress

#2 - 10/11/2018 09:43 PM - Alexander Zhukov

- Status changed from In Progress to Done

- % Done changed from 0 to 100

Fix should be included in the next build (1061).
