Target version:		Android version:	
CPU Architecture:	armeabi	CrystaX Version:	
Host OS:			
Toolchain:	all		

Description

Ouput:

```
Running device test [armeabi]: issue19851-sigsetjmp (issue19851-sigsetjmp)
/opt/android/android-sdk-linux/platform-tools/adb -s "emulator-5554" shell "cd /data/local/tmp/ndk-tests &&
LD_LIBRARY_PATH=/data/local/tmp/ndk-tests ./issue19851-sigsetjmp"
In main()
In bar()
In foo()
In handler()
siglongjmp() back to main, code = 99
ret = -1
test-return-code:255
---> TEST FAILED!!
/opt/android/android-sdk-linux/platform-tools/adb -s "emulator-5554" shell "rm -r /data/local/tmp/ndk-tests"
test-return-code:0
Cleaning up...
Done.
```

History

Works on armeabi emu with API level 13.

Seems that API level 10 libc is buggy on armeabi. The reason is that the test from Google's NDK r8e fails too if one just comments all printf statements in the test source.

#2 - 04/08/2013 05:14 PM - Alexander Zhukov
